

CITY OF TUSTIN PREFERENTIAL PERMIT PARKING PROGRAM NOTIFICATION

The City of Tustin is using a new website for the city-wide District Preferential Parking Permit Program as of January 2024. Please read the requirements written below for the parking permit program.

- The City has defined the parking permit districts. Permit holders within a district are eligible to park on any permitted street within their district. The defined permit districts take into consideration the number of eligible households along with the amount of available street parking.
- Only residents residing on a permitted block are eligible for a parking permit. This includes both single and multifamily dwellings.
- Residents are required to provide proof of residency, vehicle registration, and a copy of their driver's license.
- Permits are only valid on permitted streets in the specific zone where the resident resides from 2 AM to 6 AM daily.
- Permits are non-transferable and are associated with the vehicle's license plate number.
- Oversized vehicles, like RVs, vehicles with trailers, or large work trucks, are not eligible to receive parking permits through the Preferential Permit Parking program.
- All residents in a Preferential Permit Parking area will be subject, without exception, to all related California Vehicle Code (CVC) and Tustin City Code (TCC) parking regulations.
- Parking permits are limited to one permit per eligible resident. Each resident is required to provide their driver's license number along with a photo or scan of the license when applying for their permit, so the City can ensure that each driver receives only one permit.
- Work vehicles must have an authorized letter written from their company on letter head with the signature of the supervisor stating that it is a take home vehicle issued to the account holder.

- A parking permit is \$25.00 for the first preferential parking permit per household. There is an additional escalating premium of \$25.00 per additional permit sold where permit two would be \$50.00, permit three would be \$75.00, and permit four would be \$100.00. Each permit purchased is associated with a single vehicle and license plate that meets the City’s eligibility requirements.

- Residents on permitted streets are eligible for 75 guest permits per 6-month period. There is no charge for guest permits. To obtain a guest permit, the resident must have the vehicle information including the license plate number.
- Permits are virtual, meaning there is no physical permit, your license plate number is the unique identifier associated with your vehicle.
- Because the permits are virtual, there is no need to replace a lost or stolen hangtag. Permits are non-transferable except in the case of a resident getting a new vehicle.
- Fees are reviewed annually.
- Parking permits must be obtained online.
- All parking permits remain the property of the City of Tustin and may be revoked if used contrary to the provisions of this policy.
- Residents applying for parking permits will be required to sign a Good Neighbor Policy. These good neighbor policies help guide neighborhood ethos, promote friendly and cooperative interactions, and soothe residential “parking wars”.
