

RESOLUTION NO. 20-55

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF TUSTIN  
ADOPTING REGULATIONS REGARDING SIDEWALK VENDORS AND  
ADOPTING A FEE FOR APPLICATIONS FOR SIDEWALK VENDING PERMIT.

WHEREAS, on September 17, 2018, California Governor Brown signed Senate Bill 946 ("SB 946") into law, which added Chapter 6.2 (commencing with Section 51036) to Part 1 of Division 1 of Title 5 of the California Government Code to regulate sidewalk vendors throughout the state, including within the City of Tustin; and

WHEREAS, SB 946 establishes requirements for local regulation of sidewalk vendors and authorizes such regulations to be adopted by resolution or ordinance;

WHEREAS, the City seeks to implement sidewalk vending regulations to provide a licensing and permitting process and impose operational requirements for sidewalk vendors in the City to comply with SB 946 and protect the health, safety, and welfare of the community; and

WHEREAS, the City finds that the regulations set forth herein are directly related to objective health, safety, and welfare concerns, including but not limited to the health, safety and welfare of vendors, their prospective customers, pedestrians, those protected by the Americans With Disabilities Act, those operating motor vehicles at intersections and in rights-of-way adjacent to sidewalks, and the public at large; and

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF TUSTIN  
RESOLVES AS FOLLOWS:

SECTION 1: FINDINGS.

A. The purpose of this Resolution is to regulate sidewalk vendors consistent with Government Code section 51036 through 51039 while also protecting the health, safety, and welfare of the public.

B. Prohibiting sidewalk vending in streets and medians is necessary to protect the health and safety of vendors and their patrons, because they are at risk of being struck by vehicles and/or causing vehicular accidents if vending occurs in streets or medians.

C. Limiting sidewalk vendors' hours of operation within residential neighborhoods to specific daylight hours consistent with a residential atmosphere is necessary to protect the safety of vendors and residents who would be more vulnerable to criminal activities during evening hours, and to promote the welfare of the residents by prohibiting commercial activities and associated noise and traffic during hours when residents should be able to enjoy peace and quiet.

D. Prohibiting stationary sidewalk vendors in residential neighborhoods and limiting the amount of time a roaming sidewalk vendor may stay in one location within a residential neighborhood is necessary for the welfare of the residents of the City. Allowing sidewalk vendors to operate at a fixed location in a residential neighborhood would subject the residents to increased noise and traffic, which may be appropriate in commercial areas, but will interfere with the peace and quiet that residents should enjoy while in their homes.

E. Prohibiting sidewalk vending within 500 feet of schools is necessary to protect the health and safety of the K-12 school students because if vendors operate closer, there is a danger that school children may run into traffic and be injured or killed trying to reach the vendor. Furthermore, at the end of each school day when children leave in large numbers at or around the same time, occupying a portion of the sidewalk with vending would narrow the available sidewalk area for groups of students to pass, and could cause students to move into the street, subjecting themselves and the occupants of oncoming vehicles to greater risks of injury.

F. Prohibiting sidewalk vendors from operating within 500 feet from freeway onramps and offramps will reduce unnecessary or unanticipated slowing of vehicles (i) approaching freeway onramps where vehicular traffic immediately adjacent to the curb and sidewalk is most frequently crowded with vehicles, and (ii) exiting freeway offramps where drivers merging into oncoming traffic often have their attention focused in the direction of on-coming traffic and away from the vehicles ahead of them such that unexpected slowing of vehicles ahead is more likely to result in accidents and injuries. Prohibition of sidewalk vending within 500 feet of such areas will reduce the likelihood of such unexpected slowing in those areas and protect the health, safety and welfare of the vendor, customer, and motorists, as it reduces reduce the likelihood of accidents in those critical areas.

G. Prohibiting sidewalk vendors from operating within 100 feet from street intersections will ensure that such vending does not impede visual line-of-sight of drivers approaching intersections. Many right-turn pockets in the City are 100 feet in length, and prohibiting street vending adjacent to those stretches will reduce unanticipated slowing of vehicles in an area where drivers approaching the intersections are likely to have their attention focused in the direction of on-coming cross-traffic. In these ways, the prohibition protects the health, safety and welfare of the driving public as well as pedestrians, and vendors and their customers.

H. Prohibiting sidewalk vendors from using sound amplifying devices is necessary to protect the welfare of residents and visitors to the City by preventing excessive noise from disturbing the peace and quiet of residential areas or from an accumulation of excessive noise in commercial and other area. Further, sound amplifying devices may cause traffic hazards by distracting drivers resulting in automobile accidents and harm to pedestrians, so prohibiting their use is necessary for the health and safety of motorists and pedestrians.

I. Prohibiting the use of flashing lights or animated devices by sidewalk vendors will reduce unusual visual distractions to the driving public, thus protecting the health, safety and welfare of motorists and pedestrians.

J. Prohibiting sidewalk vendors from operating within 100 feet of a marked or unmarked crosswalk, or within 50 feet of a bus stop sign, marked bus zone or transit shelter, is necessary to protect the health, safety and welfare of disabled persons by maintaining minimum access needed to comply with the Americans with Disabilities Act, as well as to ensure that the City's senior residents and visitors have readily accessible pedestrian pathways in areas commonly utilized by pedestrians.

K. Prohibiting sidewalk vendors from operating within 18 inches from the edge of the curb face or within 50 feet of a driveway is necessary to protect the health, safety and welfare of the vendor, customer, and motorists, as it reduces exposure to pedestrian versus vehicle contact, and ensures better visibility for drivers of vehicles entering or exiting driveways.

L. Prohibiting sidewalk vendors from operating where placement impedes pedestrian access to or the use of an abutting property, including but not limited to residences and places of business, or within parks in areas located within 75 feet of residences, or within 15 feet of the entrance or exit from any place of business is necessary to protect the welfare of residents of the City by maintaining property values and use of said buildings.

M. Prohibiting sidewalk vendors from locating within 50 feet of another sidewalk vendor will avoid the appearance of a "marketplace" of vendors that would be more likely to generate crowding on public sidewalks that would further impede pedestrian and disabled use of the sidewalks, and in turn reduce the likelihood that pedestrians would enter the vehicular right-of-way, thus protecting the public's health, safety and welfare.

N. Requiring sidewalk vendors to obtain insurance is necessary to protect the health and safety of the public and employees of sidewalk vendors, because insurance would help ensure a source of funding for bodily and property damage resulting from sidewalk vendors' activities. Further, compelling sidewalk vendors to provide liability insurance with the City named as an additional insured with respect to liability arising out of a vendor's use of City property is necessary to protect the City against claims for bodily injury and property damage arising during the vendors' and patrons' uses of City property for their commercial activity.

O. The regulations set forth herein are directly related to objective health, safety, and welfare concerns, including but not limited to the health, safety and welfare of vendors, their prospective patrons, pedestrians, those protected by the Americans With Disabilities Act, those operating motor vehicles at intersections and in rights-of-way adjacent to sidewalks, and the public at large.

P. Requiring vendors to be present at all times while food, drink or merchandise is on display on a Sidewalk ensures the safety of pedestrian and vehicular traffic by ensuring that Sidewalk and Public right-of-way remain unobstructed as required by this Resolution, and helps ensure that the handling and healthiness of food and drinks complies at all times with all requirements in the Health Department permit.

Q. The fee established in Section 4 of this Resolution has been determined by City staff based on the estimated cost of staff time involved in reviewing and processing each sidewalk vendor permit or renewal application, and thus does not exceed the estimated cost of the regulatory program and service required hereunder.
